How to View Congressional Voting Information

| |
|---|
| **Market: House/Senate** |
| **Module: LegiStats** |
| **Purpose:** This guide provides instruction on using IQ to view congressional voting activities (e.g., bills, sponsors, vote dates, outcomes, party votes, issues, etc.). |
| **Key Benefits** |
| In IQ, users can view congressional voting activities via categories and their statistics. As a result, office staff can monitor how Congress Members have voted upon legislation. Office staff can also better track a piece of legislation and analyze the statistical breakdown per party, state, and member to support their activities. |

1. Navigate to the **LegiStats** module.

2. Under **Members, Votes, and Actions**, select a menu option. In this example, we will select **House Votes – Current Session**.

3. Use the filters on the left hand side to determine the records you want to see on the right.

4. Select a record, in which each is associated with a vote.

5. Select the **General** tab. You can assign the voting information record to a staff, write office notes on the vote, assign issue codes, add attachments associated with the vote, or indicate whether your Member had a leadership or administrative position related to the vote.

6. Select the **Member Detail** tab. You will see a list of all Members and how each voted.

General	Member Detail	Log

Votes by Member Name
